Software Engineer

Lahore, Pakistan • +92 3164344054 • jahanzaibislam65@gmail.com

PROFESSIONAL SUMMARY

Software engineer with 5 years of experience building production web and mobile applications across React, Next.js, React Native and Node.js. Proficient in JavaScript, TypeScript, responsive design, and modern front-end development practices. Passionate about writing clean, maintainable code, optimizing application performance, and delivering exceptional user experiences through continuous learning and a commitment to quality.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL

Frontend: React.js, Next.js, React Native (Expo), HTML5, CSS3, Tailwind CSS, MUI, Redux

Backend: Node.js, Express.js, Nest.js, REST APIs, GraphQL

Databases: PostgreSQL, MySQL, MongoDB

Cloud/DevOps: AWS (Cognito, S3, EC2, Lambda), Docker, Git/GitHub, GitHub Actions

PROFESSIONAL EXPERIENCE

MeissaSoft

Lahore, Pakistan · 4 yrs 6 months

Dec 2021 – Present

Software Engineer

Dec 2021 – Present

- Developed and maintained responsive web applications and mobile applications using React.js and Next.js and React Native.
- Worked with microservices-based architectures, integrating multiple distributed services to build scalable and maintainable solutions.
- Contributed to the development and integration of AI-powered features and AI agents and intelligent workflows to enhance application capabilities
- Build high quality, user-friendly and responsive interfaces for web and mobile applications.
- Collaborated with cross-functional teams to design, develop and implement new features.
- Optimized application performance to improve speed, scalability and overall user experience.
- Integrated Restful APIs and ensure seamless communication between frontend application and backend services.
- Troubleshoot and resolved complex technical issues using strong analytical and problem-solving skills.

Regbits (Pvt.) Ltd

Lahore, Pakistan · 6 months

Apr 2021 – Sep 2021

FrontEnd Developer

Apr 2021 – Sep 2021

- Converted UI/UX designs into pixel-perfect, responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Performed functional, regression, and user acceptance testing (UAT) to verify application behavior before releases.
- Worked closely with QA engineers and developers to reproduce, track, and resolve reported issues.
- Created, executed, and documented test cases to identify defects and validate feature requirements
- Maintained project documentation and contributed to improving development and testing workflows
- Used Git for source code management.
- Assisted in deploying application updates and verified successful releases in staging and production environments.

PROJECTS

Lilbit - Betting Platform

- Developed a responsive betting platform enabling users to place bets on various games with streamlined UI.
- Utilized **Next.js** to build and maintain the platform.
- <https://www.lilb.it>

Crispa - Accounting & Forecasting Platform

- Built and deployed a full-featured platform for digital business accounting and forecasting.
- Utilized **React.js** to build and maintain the platform.
- <https://crispa.ai/>

Eagance

- Freelancing platform with Stripe & Socket.IO.
- Utilized **React.js** to build and maintain the platform.

EDUCATION

Masters in Computer Science (MScS)

University of Engineering Technology

2026 – Present

Lahore, Pakistan

Bachelor of Science in Computer Science (BScS)

COMSATS Institute of Information Technology

2017 – 2021

Lahore, Pakistan

LANGUAGES

Urdu – Native Proficiency

English – Professional Working Proficiency
